

This method allows you to link Okta to any phone number (mobile and landline) and sends a six-digit authentication code in a phone call every time you log into SaintsConnect.

CONFIGURE VOICE CALL AUTHENTICATION

1. After logging into SaintsConnect, you will be automatically redirected to the multifactor authentication setup screen. Click the **Setup** button under “Voice Call Authentication”.

2. In the text box, enter the number for the phone for which you want to receive the call. Click the **Call** button.
3. The number is verified with a call and a “Call is in progress...” message appears. Enter the provided code into the text box.
4. Click the **Verify** button. Your Workday home page should automatically load.
